

201

Vale View

IMPULSE 2

PP / 12 mths / 405kg

Longevity & fertility with this lovely soft heifer. Her dam was recently culled at 16 years of age, she produced 14 calves with one of her daughters producing the \$24,000 Top Price Female @ the 2022 National Female Sale.

This is the second season of Vale View Einstine 2 progeny & we are very happy with them. Females are as feminine as you can get them & sons are long & deep with that added punch about them. Backed by excellent temperament & very hard to fault structure.
