12mths. Another lovely Oasis A Sir Mortlock daughter. Exceptionally quiet & feminine is this young heifer & we think good enough for the show ring. Backed by some consistent female lines, her dam is a first calf heifer & her dam is a maternal IVF sister to Vale View Ripper, she has produced 6 calves to date with 2 females retained.

Sire: Oasis A Sir Mortlock was a \$24,000 purchase from the 2021 DN Sale. Selected for his length & depth, excellent feet & legs as well as a lovely polled head, a very fleshy young sire.
